Dear George:

The urgency of delivery requirements on Contract A-101 will necessitate our placing a number of time and material orders with vendors for sheet metal fabrication. Only by placing such work on a time and material basis can we get it done in the very short time required and on the basis of experimental drawings. Our own Model Shop facilities are not adequate to handle the considerable volume involved.

Your approval is requested for two purchase orders to be placed on a time and material basis without competitive bidding. The vendors were selected on the basis of ability to perform this quality of work and to meet the very short delivery schedule required.
